**T**his is not what Chef Hyde Grosz attributes her skills to, she states,

*"Eight years of private cooking lessons with a French trained chef groomed by celebrity chef Raymond Blanc is where I learned to trust my own palate and grow as a chef." Chef said before adding,*

*"My mother and grandmother so deserve credit. I think every great Chef has childhood inspiration."*

*"The Pig & Truffle is like going to a restaurant, watching chefs on TV and taking a private lesson all rolled into one. The best thing is the informal atmosphere. I learned the most about cooking when I was able to watch and then mimic without feeling pressure or insecure. This is the main reason I wanted to start this business."*
